Machining and Milling

Pryme Group operate a comprehensive range of **130+ modern CNC machinery** to support most manufacturing activities including mill turn, horizontal milling and 4th and 5th axis capability.

Fabrication & Welding

Our experienced, **highly trained** team of fabricators have a comprehensive suite of WPQRs / WPSs to ASME IX, NORSOK M-601, AWS D1.1, ISO 15614-1, ISO 15614-2, PED5500 and ISO 15614-7.

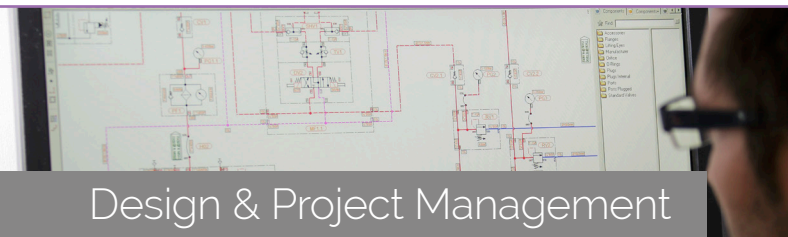

Painting & Coating

We work with **many different materials**, offering a range of coatings including zinc and manganese phosphate, acrylic, baked moly and xylan coating in-house, as well as blasting and painting in-house.

Site Services

Pryme Group's excellent service and expertise don't end at our facilities. Our staff are able to provide mechanical, hydraulic, welding, testing and assembly services wherever needed.

Design & Project Management

As well as in-house design services, our technical staff can advise on the most suitable and cost effective options - handling your project from conception through to delivery.

Comprehensive Testing

We offer a broad range of testing services, including PR2 API 6A testing, API 6D, 17D, 17H & ISO 14310, hydrostatic testing, cryogenic & temperature testing and submerged gas testing.

High Pressure & Marine Products

Pryme Group also offers a wide range high pressure testing equipment (liquid pumps, gas boosters, valve & hose testers) and marine products (deck equipment, ROV & diver tools, etc...).

Capable & Qualified

We hold and maintain the appropriate accreditations for quality and work, including:
ISO 9001:2015 ISO 14001:2015 BS OHSAS 18001
ISO 3834-2:2005 ISO 9606-1:2012 AS/EN ISO 9100
Fit For Nuclear
