

The new ROTZLER Snatch Block 620 kN:
More than 45% weight reduction.

NEW

- Outstanding ergonomics
- Top performance
- Perfect handling
- Light weight

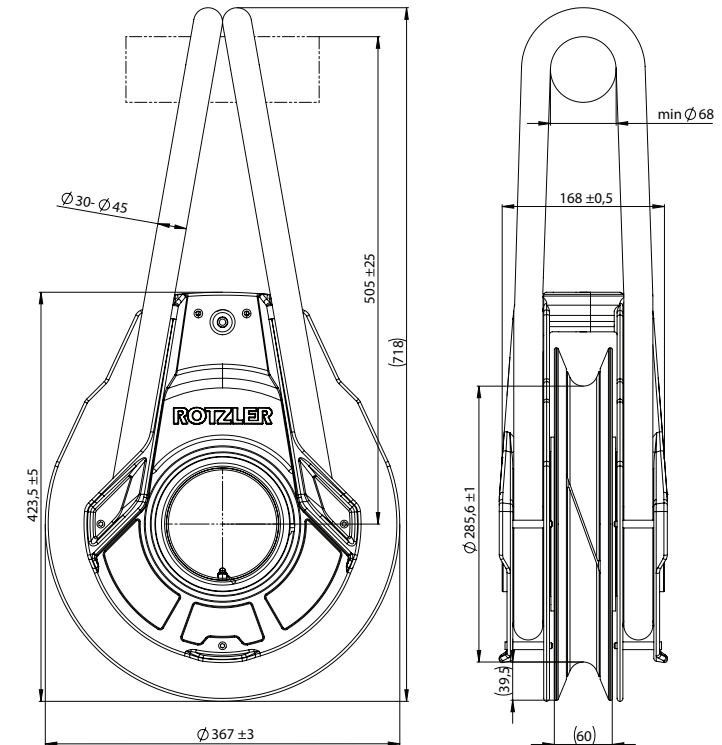

The new ROTZLER Snatch Block 620 kN

Ergonomic and versatile in operation

The new ROTZLER Snatch Block is the perfect accessory in recovery situations. It can be used for doubling the pulling force of your main recovery winch. As well, it serves perfectly for bypassing hindrances/obstacles in the recovery situation.

The outstanding feature of the new ROTZLER Snatch Block is its ergonomics: Compared to common snatch blocks, the new version offers a weight reduction of more than 45%. With only 25 kg of weight on this 620 kN version it can be handled by one person. That makes the operation faster and more effective. And that is what counts at the end of the day. Safety and efficiency.
