

## Munitions Response

RELYANT provides comprehensive risk management services for munitions response to include: ordnance and explosives waste remediation, explosive ordnance disposal, counter improvised explosive device, mine action and explosive remnants of war clearance. RELYANT is licensed in Afghanistan and accredited by UNOPS Mine Action Unit in NYC and UNMACCA to perform demining operations.

## Relocatable Buildings

RELYANT has extensive knowledge in both modular/relocatable living quarters and conducting operations in austere environments. RELYANT understands the needs of your organization to meet the engineering requirements while providing an attractive and functional billeting solution.

## Vehicle Maintenance

We have the capability to service and maintain vehicle fleets in the thousands. Our highly-trained mechanics and maintenance support teams are equipped to provide vehicle repairs in a professional and timely manner. We also deploy mobile maintenance teams to service vehicles throughout the country along with 8 static locations. Our mechanics perform services ranging from brake system to repair to engine replacement.

## Spray Foam Insulation

This innovative approach to energy savings is becoming more and more popular. One of our primary uses is to apply the product on soft-sided surfaces, such as tents in Afghanistan. Spray Foam Insulation provides a significant cost savings in fuel for the client and reduces transportation risk of fuel in an austere environment. RELYANT has the capacity to currently spray 40,000 square feet of foam per day.

## The Dynamics of Our Team

RELYANT was founded in 2006 and is operated by former U.S. military personnel who have extensive “in-theater” experience. RELYANT is a global “turn-key” service provider dedicated to delivering world-class solutions to complex projects around the globe.

As a provider of services to both the Federal Government and commercial market sectors, we work closely with our clients to understand their specific needs. We then develop solutions that fit the clients’ requirements, local culture and laws, and wider international conventions.

We operate with one fundamental business concept; our clients are the beginning and the end of our reason to be in business. We find solutions that best achieve our clients’ goals. We believe lasting relationships are the lifeblood of our business.

In addition to its Maryville, Tennessee headquarters, the company operates another U. S. office in San Antonio, Texas, and offshore offices in Iraq, Afghanistan, and Uganda.

Afghanistan | Iraq

## our Services

### Security

RELYANT has a proven process for the management and technical approach to delivering any static security requirement. We are currently conducting transportation and convoy security missions with our joint venture partner throughout Afghanistan. The RELYANT Team has over 70 years combined experience in the preparation of staffing plans, including post manning factors, and technical approaches. Coupled with our joint venture partner we have capacity to add an additional 1,000 personnel to our current security license with the MOI in Afghanistan.

### Transportation

RELYANT has the capacity and experience to move within Afghanistan. RELYANT has completed over 150 missions moving supplies for our construction and spray foam services throughout Afghanistan. We have a mature supply chain in country that is moved through our transportation division and with our convoy security teams

### Construction

Our professionals have extensive experience on projects ranging from simple to complex in scope including a variety of building types – manufacturing and light industrial buildings, vehicle maintenance facilities, base camps, warehouses, and military training grounds. Through RELYANT’s specific market groups, the company has a powerful resource. Our staff has years of proven industry-specific expertise in costing, planning, building and delivery of projects that is unmatched in the industry. This expertise, combined with local market knowledge, has made RELYANT successful in virtually every region of the world.

### Life Support Services

The engineering and construction of permanent and temporary life support systems is another RELYANT service line. Our life support services team routinely operates in remote and austere environments providing living quarters, dining and kitchen facilities, shower and toilet facilities, first aid stations and more. We also provide the necessary operations and maintenance for these systems. Recently, RELYANT was responsible for building 11 life support areas, which included full custom-designed portable living and office trailers, full generator/power capacity, DFAC, ablution units, and MWR areas. The project included life support areas supporting 1,500-2,000 personnel.

### Logistics and Procurement

We bring additional value and exceptional cost control to our clients through our totally integrated logistics and procurement services. The RELYANT Logistics Department utilizes its significant purchasing power to ensure the optimum combination of quality materials at the best possible prices. RELYANT’s integrated logistics and procurement solutions are driven by our procurement-lead approach. The result with this approach is the realization of substantial cost savings and the assurance of having all project materials and assets available to meet completion commitments. We do all of this while effectively managing the risk associated with global solutions.
